Project Testing Document

Project Name: Automating Data Import and Relationship Mapping Using Import Sets & Dot Walking

Project Description:

A web-based system designed to automate employee data management, including registration, login, data storage, updating, and report generation.

Project Version: 1.0

Testing Period: 23 Feb 2026 to 31 Feb 2026

Testing Scope

Features to be Tested:

- User Registration & Login
- Employee Data Management (Add, Edit, Delete)
- Search & Filter Functionality
- Report Generation
- Role-Based Access Control

User Stories Tested:

- USN-1: User Registration
- USN-2: Login System
- USN-5: Add Employee Data
- USN-7: Edit Employee Data
- USN-10: Report Generation

Testing Environment

- **URL/Location:** http://localhost:3000 *(or your project link)*
- **Credentials:**
  - Username: admin@test.com
  - Password: 123456

Test Cases

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User Registration	Step 1: Enter details Step 2: Click Register Step 3: Submit	User should be registered successfully	Registration successful	Pass
TC-002	User Login	Step 1: Enter username/password Step 2: Click login	User should access dashboard	Login successful	Pass
TC-003	Add Employee Data	Step 1: Enter employee details Step 2: Save	Data should be stored	Data added	Pass
TC-004	Edit Employee Data	Step 1: Select record Step 2: Update details	Changes should be saved	Updated successfully	Pass
TC-005	Delete Employee Data	Step 1: Select record Step 2: Delete	Record should be removed	Deleted successfully	Pass
TC-006	Search Employee	Step 1: Enter name/ID Step 2: Search	Correct result displayed	Works correctly	Pass

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-007	Report Generation	Step 1: Click generate report	Report should be created	Report generated	Pass

---

Bug Tracking

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback
BG-001	Login fails with incorrect password	Step 1: Enter wrong password Step 2: Click login	Medium	Closed	Error message displayed correctly
BG-002	Slow loading of dashboard	Step 1: Login Step 2: Open dashboard	Low	Closed	Performance improved after optimization

---

Sign-off

- **Tester Name:** Dharani Priya A
- **Date:** 23 Feb 2026
- **Signature:** _____

Notes

- Both **positive and negative test cases** are covered
- System tested for **functionality, performance, and usability**
- Bugs identified and resolved successfully
- Ready for deployment after final approval

Conclusion

The system has been thoroughly tested and meets all functional requirements. It is **stable, efficient, and ready for real-time usage**.
